

SWANPLY™

Swansply™ is an industrial sanded plywood panel. A proprietary hardwood face provides an extremely smooth and uniform working surface. Ideal for lamination and painting due to our unique calibration techniques. Douglas Fir inner plies provide excellent Strength and Stiffness for a wide range of uses.

MADE IN USA | SUSTAINABLE | RENEWABLE | RECYCLABLE

ADVANTAGES

Swansply™ is designed to provide a smooth uniform surface for wide variety of applications while respecting the environment.
