

# SIGNREADY UV<sup>®</sup> Sign Board

- Vinyl letter/digital print/paint ready
- 5-year warranty against flaking and peeling
- Smooth, high gloss finish
- Minimal wood grain & no patch show through
- Enhanced panel stability using Swan Peel<sup>®</sup> and SwanDry<sup>™</sup> Technology
- Exceptional weatherability
- Superior scratch, chip & mar resistance
- NAUF - meets CARB requirements

**Swanson Group<sup>®</sup> provides the highest proven performance in panel solutions.** Customers recognize our exceptional history of performance, exhibited in our panel solutions, including the first high gloss UV coated MDO panel in North America.

We are now enhancing our capability to provide superior panel performance. “Swan Peel”<sup>®</sup> Technology provides a smoother surface: less grain show through, and improved glue and overlay bond. “Swan Peel”<sup>®</sup> Technology reduces thickness variability: resulting in an enhanced balanced construction, tighter core lines, and dimensional stability.

**Swanson is manufacturing overlay panels in a new state-of-the-art facility - the most technologically advanced operation in North America.**

### Product Description:

SignReady UV<sup>®</sup> is a prefinished, high gloss, vinyl letter/ink jet/paint ready, MDO plywood with a 5-year limited warranty. It is an excellent surface for wide layout digital printers, vinyl lettering and sign paints.

### Panel Construction/Moisture Resistance:

SignReady UV<sup>®</sup> is constructed of a proprietary, Urethane-acrylic, cross-linked, UV cured finish applied to hardwood face MDO plywood with Douglas Fir/Hemlock inner plys. It is manufactured with a two-step<sup>®</sup> layup using our Swan Peel<sup>™</sup> Technology, has a waterproof glue bond and meets APA PS 1-19. All Swanson products are made in the USA.

### Working Faces/Treatment:

- SignReady UV<sup>®</sup> is available with one or two working faces. Panels with a single working face are provided with an MDO or primed MDO backer.
- Solid, high gloss white finish with reflectance of 75 to 85
- Urethane-acrylic, cross-linked, UV cured finish consists of three thermo-set base coats and two cross-linked, UV cured top coats.
- Hard, durable, chip and scratch resistant finish

### Working Edges/Treatment:

- Factory sawn and painted to match face
- Fill, prime and top coat all exposed wood with at least two coats of acrylic, polyurethane or polyurethane-acrylic.

### Applications:

- Vinyl, digital print and painted signs for longer duration applications.
- Furniture, cabinets, displays/fixtures, shelving and partitions.
- Truck body and trailer liners/doors.

### Limitations:

SignReady UV<sup>®</sup> must be edge sealed for exposure in exterior applications.

### Sign Board:

- Highway<sup>®</sup> HDO - Premium sign panel, prepped for reflective film.
- SignReady UV<sup>®</sup> - Prefinished, high gloss, paint/vinyl letter ready, 5-yr. limited warranty.
- Prefinished UV<sup>®</sup> - Prefinished, satin gloss, paint/vinyl letter ready, 2-yr. limited warranty.
- Signal<sup>®</sup> MDO - Two-step<sup>®</sup>, hardwood faced, tightly laid core, ideal for cutout letters.
- Pre-Primed MDO - Exclusive, primed overlay, Two-step<sup>®</sup>.
- Crezon Two-Step<sup>®</sup> MDO - Premium paint grade.
- Guardian<sup>®</sup> One-Step MDO - Standard paint grade.

### Technical Data Applicable Standards

All panels are manufactured by Swanson Group<sup>®</sup> per product standard PS1-19. This standard is available at [www.apawood.org](http://www.apawood.org).

Physical Properties	3/8" to 1/2"	5/8" to 3/4"
Modulus of Rupture <sup>2,3</sup>	6,670 psi	6,860 psi
Modulus of Elasticity <sup>2,3</sup>	795,050 psi	853,565 psi
Lineal Expansion <sup>2,3</sup>	.057%	0.050%
Thickness Swell	3.8%	3.8%
Water Absorption (24-Hours)	6.0%	6.0%
Internal Bond <sup>2</sup>	180 psi	134 psi
Face Screw Holding <sup>2</sup>	430 lbs.	449 lbs.
Edge Screw Holding <sup>2</sup>	Not Applicable	408 lbs.
Moisture Content <sup>2</sup> ASTM D-1037	6-9%	6-9%

Thickness Tolerance	+/- 1/32" (.031")
Length & Width Tolerance	+0, -1/16" (.062")
Squareness	1/16" (.062")
Straightness	1/16" (.062")

<sup>1</sup>5-panel average. Product averages vary for individual thicknesses, consult sales or technical staff for exact properties.<sup>2</sup> All tolerances and specifications apply at the time of manufacture.

<sup>2</sup>ANSI 208.1 test result.

<sup>3</sup>Calculations based on test averages of along and across grain.

<sup>4</sup>Shelving physical properties based on engineering calculations.

<sup>5</sup>Flame and smoke spread properties based on engineering calculations.

<sup>6</sup>Shelving stiffness/bending properties are based on a limited 5-panel average.

Note: All tolerances and specifications apply at the time of manufacture.

Note: Product averages vary for individual thicknesses. Consult sales or technical offices for exact properties.

### Thicknesses & Sizes:

SignReady UV<sup>®</sup> is available in 3/8" (4 ply), 1/2", 5/8", & 3/4" thickness. Standard panel sizes are 4' X 8' and 10' only.

### Product Grade

Standard product is shipped on grade only. Special product is shipped allowing up to 10% total Good One Side (G1S) and/or Shop, identified & priced separately. Shipments of G1S and shop may be available.

## Weatherability:

SignReady UV®					
EMMAQUA® Outdoor Accelerated Weathering Test Simulates 3.4 years in Florida and 2.9 years in Arizona

3/8"	41.0	43.0	88
1/2"	48.0	51.0	66
5/8"	63.0	66.0	50
3/4"	76.0	78.0	44

\*Average product weights may vary +/- 10%

## SignReady UV® Lettering & Finishing Instructions

- Vinyl Tape:** SignReady UV® is designed for use with most popular vinyl graphic and lettering tapes. It has shown good performance for adhesion and transfer properties with the following tapes:
  - Gerber 3M® Scotchal™ 220 & 280 and Quantum™ 2000
  - Rexcal® (PMK)
  - Arlon Calor® II
  - Avery Graphics™ A4, A6 & A9 Opaque
  - ORACAL® 651, 751 & 851
  - Qual-Cal
  - Styletech™ V2000 Series & V4000 Series
 Follow the tape manufacturers application procedures.
- Paintability:** SignReady UV® has exhibited good adhesion with the following sign paints:
  - One Shot Chromatic® Lettering and Background Enamel and "1 Shot"® Lettering Enamel
  - Weather King II
  - Norwest 201 White
 Recommendation: Perform an adhesion test to ensure best results.
- Wide Format, Digital Printers:** SignReady UV® is designed for most wide format, digital printers using UV cured ink jet technology.
- Edge Seal:** Fill and reseal cut edges or exposed wood at holes by:
  - Applying a least two coats of acrylic, polyurethane or polyurethane-acrylic based primers and paints
  - Applying a thin coating of paintable exterior grade caulking, then applying primer and paint as above or;
  - Sealing the edges with exterior grade caulking, then a suitable edge cap (moulding).

## Warehouse Storage and Handling

- Store in a dry, clean, well-ventilated area indoors
- Avoid temperatures and moisture extremes. Allow panels to equalize for 72 hours or more before use
- Pieces must not be stored in contact with the ground
- Limit the stacking height to four or five units. Separate units with clean, dry spacers of uniform thickness, aligned carefully. Use three spacers for panels 8' long, four or five spacers for longer panels.

## Environmental Impact

- Swanson Group® uses process by-products to produce energy
- Swanson products are renewable, biodegradable and recyclable

## Warranty:

Limited 5 Year Warranty - SignReady UV®	
Swanson Group® warrants that the Swanson coating system applied to SignReady UV® MDO plywood, will not flake or peel for a period of 60 months from date it is put into service, or 66 months from date of production. This applies only to the original factory applied coating system.	
<b>Remedy:</b> Swanson's sole and exclusive obligation under this warranty will be at its sole election to: (a) refinish or repair such panel in place, or (b) make an allowance equal to twice Swanson's original selling price, prorated according to the following schedule:	
A) During the first 24 months of warranty period; reimbursement = 100% B) During months 25 through 36 of warranty period; reimbursement = 75% C) During months 37 through 48 of warranty period; reimbursement = 50% D) During months 49 through 66 of warranty period; reimbursement = 25%	
<b>End User Responsibilities:</b>	
1. Product must be handled consistent with good handling practices used with prefinished products. 2. All cut, exposed edges must be properly sealed and refinished. A minimum of two coats, 4-5 mils wet each (2 mils dry each) of a high quality exterior acrylic edge coating system is considered a minimum. 3. Small surface scratches should be touched up with Sherman Williams Order #B1-+01, A85W51/14 Exterior High Gloss Enamel and Extra White tinting base #6405-14774. 4. Proper documentation of purchase date must be presented with any claim. 5. Product for which claims are submitted must be available for inspection by Swanson Group®, or one of its representatives, for at least 60 days after any claim is submitted.	
<b>Exclusions:</b>	
1. Failure due to causes other than the coatings themselves, or application and curing of the coating system. 2. Damage caused by acts of God, fire, physical defacement or abrasion. 3. Damage caused by mishandling or improper installation. 4. Failure caused from drilling, routing or machining the signboard surface. 5. Failure due to aggressive environments; i.e. salt spray, exposure to chemical fumes. 6. Failure due to improper edge finishing or improper touch up. 7. Panels installed at more than 25° from vertical or exterior applications.	

<sup>1</sup>Bending Stiffness = EI\* (lb-in<sup>2</sup>/ft); <sup>2</sup>Bending Resistance = M or F<sub>s</sub>S (lb-in/ft); <sup>3</sup>Planar Shear Capacity: V or F<sub>v</sub>lb/Q (lb/ft). There is no DOL (Duration of Load) or experience factor applied to EI, F<sub>s</sub>S and F<sub>v</sub>lb/Q.

## Warnings:

This product will generate wood dust from sawing, sanding, or shaping. Safety data sheets are available on Swanson's website at [www.swansongroup.biz](http://www.swansongroup.biz) and upon request.

Structural panels (PS-1) are exempt from California Air Resources Board regulations, however, this product is below CARB limits for all uses.
